

FOR IMMEDIATE RELEASE**CME Group, Bolsa Mexicana de Valores and MexDer Announce Order Routing, Equity Agreement**

CHICAGO/MEXICO CITY, March 8, 2010 – CME Group, the world’s leading and most diverse derivatives marketplace, and the Bolsa Mexicana de Valores, S.A.B. de C.V. (BMV), the financial exchange operator in Mexico, today announced that they have entered into a strategic partnership that includes an order routing agreement for derivatives products. CME Group has purchased shares in the Mexican exchange valued at \$17 million, or approximately 1.9 percent of outstanding BMV shares, as part of the equity portion of the agreement. Additionally, the Control Trust of BMV has granted CME Group the right to nominate a member to BMV Board of Directors and the two exchange operators have signed a memorandum of understanding covering activities aimed at enhancing the partnership between the two exchanges.

Through the agreement, CME Group will become the exclusive exchange provider of derivatives order routing services to BMV outside Latin America, and BMV will be the exclusive exchange provider of derivatives order routing services to CME Group in Mexico. BMV’s derivative products are offered through its derivatives subsidiary, MexDer.

CME Group and BMV have also agreed to pursue potential joint initiatives including product development, marketing and customer education as well as clearing opportunities. Additionally, BMV, CME Group and its Global Preferred Strategic Partner BM&FBOVESPA will initiate discussions about the aforementioned transaction and other commercial opportunities.

“Latin America is a key market for CME Group,” said Terry Duffy, CME Group Executive Chairman. “We are pleased to announce this new partnership with BMV which furthers our global strategy to offer customers increased access to our products while, at the same time, allowing BMV to use the CME Globex trading network to increase distribution of their products in North America.”

“With Mexico’s standing as the 13<sup>th</sup> largest economy and one of our country’s most significant trading partners, we are pleased to work with BMV to facilitate global hedging and risk management activity in our respective markets,” said Craig Donohue, CME Group Chief Executive Officer. “In addition to providing CME Group customers with our own highly liquid products in interest rates, equities, foreign exchange, commodities, energy and metals, the order routing agreement announced today will soon broaden efficient access on or through our CME Globex electronic trading platform to financial markets in Brazil, Mexico, South Korea, Dubai and Malaysia.”

“With this operation BMV increases its presence in the international markets. Greater distribution capabilities are a key part of our strategy to attract more investors to Mexico,” said Luis Tellez BMV Executive Chairman and Chief Executive Officer. “Allowing international investors an easier access into MexDer will improve liquidity and develop the local market. At the same time this agreement will provide Mexican investors with more tools to manage their portfolios.”

The order routing arrangement, which is scheduled to begin in 2011, will give BMV customers access to CME Group’s benchmark derivatives contracts including interest rates, foreign currencies, equity indexes, energy, metals and agricultural commodities. It will also give CME Group customers access to BMV’s interest rate and equity index derivatives.

Barclays Capital is acting as financial advisor to CME Group, and Mijares, Angoitia, Cortés y Fuentes, S.C. is acting as CME Group's legal advisor.

CME Group

As the world’s leading and most diverse derivatives marketplace, CME Group ([www.cmegroup.com](http://www.cmegroup.com)) is where the world comes to manage risk. CME Group exchanges offer the widest range of global benchmark products across all major asset classes, including futures and options based on interest rates, equity indexes, foreign exchange, energy, agricultural commodities, metals, weather and real estate. CME Group brings buyers and sellers together through its CME Globex® electronic trading platform and its trading facilities in New York and Chicago. CME Group also operates CME Clearing, one of the largest central counterparty clearing services in the world, which provides clearing and settlement services for exchange-traded contracts, as well as for over-the-counter derivatives transactions through CME ClearPort®. These products and services ensure that businesses everywhere can substantially mitigate counterparty credit risk in both listed and over-the-counter derivatives markets.

Statements in this press release that are not historical facts are forward-looking statements. These statements include, but are not limited to, the potential benefits of the transaction involving CME Group and Bolsa Mexicana de Valores and the Company’s plans, objectives, expectations and intentions. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or implied in any forward-looking statements. Among the factors that might affect our performance are: increasing competition by foreign and domestic entities, including increased competition from new entrants into our markets and consolidation of existing entities; our ability to keep pace with rapid technological developments, including our ability to complete the development and implementation of the enhanced functionality required by our customers; our ability to continue introducing competitive new products and services on a timely, cost-effective basis, including through our electronic trading capabilities, and our ability to maintain the competitiveness of our existing products and services; our ability to adjust our fixed costs and expenses if our revenues decline; our ability to generate revenues from our processing services; our ability to maintain existing customers, develop strategic relationships and attract new customers; our ability to expand and offer our products in foreign jurisdictions; changes in domestic and foreign regulations; changes in government policy, including policies related to common or directed clearing and changes as a result of legislation stemming from the recent financial crisis, including the proposed regulatory reform of the over-the-counter derivatives and futures market and any changes in the regulation of our industry with respect to speculative trading in commodity interests and derivative contracts; the costs associated with protecting our intellectual property rights and our ability to operate our business without violating the intellectual property rights of others; our ability to generate revenue from our market data that may be reduced or eliminated by the growth of electronic trading or declines in subscriptions; changes in our rate per contract due to shifts in

the mix of the products traded, the trading venue and the mix of customers (whether the customer receives member or non-member fees or participates in one of our various incentive programs) and the impact of our tiered pricing structure; the ability of our financial safeguards package to adequately protect us from the credit risks of clearing members; the ability of our compliance and risk management methods to effectively monitor and manage our risks; changes in price levels and volatility in the derivatives markets and in underlying fixed income, equity, foreign exchange and commodities markets; economic, political and market conditions, including the recent volatility of the capital and credit markets and the impact of current economic conditions on the trading activity of our current and potential customers; our ability to accommodate increases in trading volume and order transaction traffic without failure or degradation of performance of our systems; our ability to execute our growth strategy and maintain our growth effectively; our ability to manage the risks and control the costs associated with our acquisition, investment and alliance strategy; our ability to continue to generate funds and/or manage our indebtedness to allow us to continue to invest in our business; industry and customer consolidation; decreases in trading and clearing activity; the imposition of a transaction tax on futures and options on futures transactions and/or repeal of the 60/40 tax treatment of such transactions; the unfavorable resolution of material legal proceedings and the seasonality of the futures business. More detailed information about factors that may affect our performance may be found in our filings with the Securities and Exchange Commission, including our most recent periodic reports filed on Form 10-K and Form 10-Q, which are available in the Investor Relations section of the CME Group Web site. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.
